

**Tool 2: Table of indicators of project effects** (outputs, outcomes, impact)

including sources of information enabling the verification of their level, with examples

	What <b>INDICATORS</b> will be used to assess the achievement of the project effects?	Who or what can be a <b>SOURCE OF INFORMATION</b> needed to verify the level of indicators?
<p><b>OUTPUTS</b></p> <p>Material goods / services that the recipient receives (or participates in their "production") during the course of the evaluated project</p> <p><i>In reference to specific operational goals</i></p>		
<p><b>OUTCOMES (HARD AND SOFT)</b></p> <p>Direct and immediate effects (in tangible and intangible form)</p> <p><i>In reference to the specific and operational objectives of the evaluated project</i></p>		
<p><b>IMPACT</b></p> <p>Wider effects of the project going beyond the direct and immediate effects, changes that occur in the social group or beneficiaries' communities caused by the project</p> <p><i>In reference to the overall strategic goals of the evaluated project</i></p>
